# I. Introduction

## A. Purpose

The Rules and Regulations are intended to inform the members and, in some cases, guests of their responsibilities for maintaining legally established community standards for the property as well as conduct and care for the amenities (see Authority below).

## B. Authority and Enforcement

Members and other residents must not engage in any abusive or harassing behavior, either verbal or physical, or any form of intimidation or aggression directed at other members, residents, guests, occupants, invitees, or directed at management, its agents, its employees, or vendors.

State law and county ordinance form the broad basis for the Association's regulations, but Kala Point Rules and Regulations do not replace state laws. Members of the Association accept additional restrictions in the form of Project Documents (Covenants, Conditions & Restrictions (CC&Rs), Articles of Incorporation, Bylaws, Rules and Regulations) Architectural Standards, and Policies & Procedures.

The Rules and Regulations constitute a synthesis of standards based on the authority derived from all the above-mentioned laws and Kala Point documents as well as state and county requirements. They are approved by the Board of Directors which may also "adopt, promulgate, amend, or repeal" such Rules and Regulations as it deems necessary.

The Architectural Standards derive their authority from CC&R Articles IV and VIII and govern new structures and modification to existing structures. They also deal with separate structures (including woodsheds, gazebos, and play equipment) and related issues such as TV antennas, fences, exterior lighting, and location of garbage cans.

The Administrative Procedure for Compliance & Appeals (APP I) provides a procedure for members, committees, and the Board to enforce the documents. Members failing to comply with the Rules and Regulations stated in this document, after Board notification, will be subject to a noncompliance hearing and fines. Copies of the established policies and procedures on compliance and how to prepare for and conduct a compliance and/or appeal hearing are available to members from the Association office.

## C. Definitions

The CC&Rs define Guests as any person in the company of a member.

Single family includes immediate family, legal dependents, foster children, and domestic partners.

For the purpose of using KPOA Common Areas, extended family and anyone directly visiting a member who has the member's express permission will be considered a guest. Members may not extend open invitations to guests for use of Common Areas and Facilities.
